Verse 1:

See the light breaking through  
All the lies with the truth  
Hear the sound of the wind  
Let the roar of Heaven begin

Prechorus:

Can't stay silent  
Can't stay still  
When You show up in power  
Glory revealed  
Can't stay silent  
Can't stay still  
When I feel the fire  
Feel the ground shake

Heaven invade  
Heaven invade  
There's freedom in this place  
Every heart awoken  
Everything is changing now  
Heaven invade

Broken hearts on the mend  
All depression must end  
All the shame and the fear  
Run away when You're here

PreChorus:

Chorus:

Interlude:

Bridge

My heart starts to race  
And I can't contain  
The feeling of joy  
Being in Your presence  
I Can't help but dance  
Can't help but sing  
And I don't really care what  
Anyone thinks
