Intro:

Verse:

The battle's all around me
As the enemy draws near
Sometimes this warrior has no faith
Just a heart of fear
But I made you a promise
When you called me to the task
That I'd lay my life down for you
Whatever you may ask

Verse2 :

I lift my head and hold my ground
I will not be afraid
I stand upon your authority
For the price has all been paid
Cause you made me a promise
To anoint my life for war
No matter where's this battle's fought
You will go before

Chorus:

For this cause we live
For this cause we stand
We will count the cost and learn to carry on
For this cause we believe
For this cause we remain
Though the enemy is standing in our way
We will fight the fight
We will fan the flame
We will battle on
Through the power of His na - me
For this cause we live
For this cause

Verse 3:

The battlefield's before me
Yet I stand before you still
I know that you will overcome
I'm confident you will
Cause we hold to your promise
As we answer the call
That all the battles that we fight
They are worth it all

Verse 4:

Cause you're the coming conquerer
Who's cause we will proclaim
We will not lay our weapons down
We will not be ashamed
